Subject: Pls forward to planning commission

Dear Planning Commission,

Re: item 3 amplified music at Love Social Cafe

Please do NOT allow amplified music at this location.

This cafe shares a property line with residential homes. Amplified music would disturb the neighborhood and result in more complaint calls to the city and police, which have already increased in the past several years.

I live on Foothill Road less than 1 mile from this location. Last night I could hear amplified music at 10p inside my home with the windows closed! Ojai is a narrow valley and the acoustics of the valley are such that sound reverberates in unpredictable ways. It's loud out there !

This would set a precedent that will affect the general peace of our entire downtown, especially considering the impact with the opening of the El Roblar with its new event center.

Please maintain our civilized standards vis a vis our existing noise ordinance .

Yours truly Cindy Convery
